Dear Sir/Madam,

I am writing to you regarding the advertised 'QA Tester' position at Electric Square.

From a young age I have had a passion for games and have enjoyed creating video game content. From level design and 3d assets, to making my own games from scratch, my enthusiasm for games design inspired me to go back into education. In June 2011 I was awarded a National Diploma in Interactive Media with Game Design. Here I worked tirelessly and to achieve my Triple Distinction.

In recent years I attended a work experience placement with BAFTA award winning Plug-In Media in Brighton. Here I experienced what it was like to work in QA in a professional, creative, agile environment. I have also kept myself busy elsewhere participating in various testing programmes for the likes of Ubisoft and Team17 Digital among many popular independent studios. I was also directly involved with FuturLab Studio in Brighton for the playtesting of 'Velocity 2x' for PS4.

I am highly motivated, exercise initiative and I am dedicated to achieving my goals. I can be relied upon to work alone or as part of a cohesive team. I also have considerable experience in managerial roles at flagship retail games stores, from which I have learned a great deal in leadership, organisation, performing under pressure and motivating staff. In these positions I have led both small and large teams to success in meeting company deadlines and surpassing targets.

I relish the opportunity to work with Electric Square and I am confident that I can become a valued asset to your team.

Please see the attached link to my [online portfolio](#).

Thank you for your time and I look forward to hearing from you.

Kind Regards,

Bradley Michael Levick
